

Click2Demo Demonstration Instructions

1 Demo Application Information

Partner Company Name: Norris Print-Tech

Demo Solution Name: Moto-Scan

Demo Solution Version: 4.1.10

Date:

2 Demonstration Instructions

These instructions demonstrate the procedures to use the demonstration application.

This is a short demo of Moto-scan’s functionality using default settings. Additionally Moto-scan supports database use, FTP synchronization, input restrictions and much more. It is highly customizable and to get a better overview please go to www.moto-scan.com and watch the introduction video. In addition the user manual contains all features and how to use them, the manual can also be downloaded at www.moto-scan.com

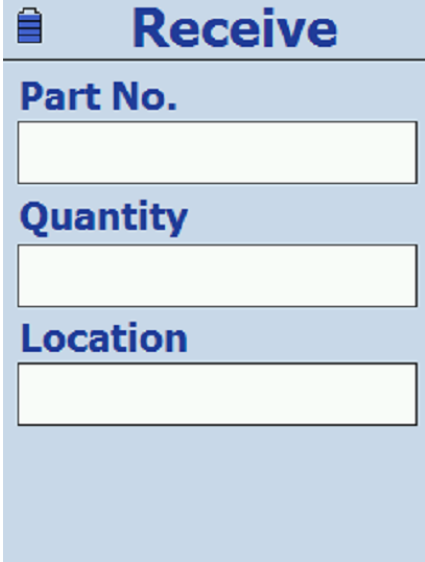

For a demo version with full features, go to www.moto-scan.com → downloads and select “Download app now”. This demo includes the configurator designed to be installed on a computer and will also allow synchronization of data to that computer. The only limitation in the demo is that you can only store one record at the time.

2.1 Prerequisites

	Prerequisite	Notes
1	Installed demo application.	

2.1.1 Procedure

	Description	Action	Result Screen Graphic
1	Describe the step: Run the demo application.	State the action to be performed: Select the application from Programs or the desktop.	

	Description	Action	Result Screen Graphic
2	Select menu	Select a menu to use for data registration. – Screen changes to show that menu.	
3	Scan or enter data.	Data will show up in the field the cursor is placed in. When all fields are completed the device will beep and all fields will be cleared. This shows that the data has been logged.	

	Description	Action	Result Screen Graphic
4	Further description	<p>Usually you could now dock the terminal and the data logged would be synchronized with the computer. Because this demo only has the terminal client of Moto-scan it is not possible to do so. For a full demo version please go to www.moto-scan.com and get the installer from the Downloads section.</p> <p>Moto-scan is highly customizable. To get the full overview of the features it is highly recommended to go to www.moto-scan.com and watch the featured video on the front page. All menus and fields can be customized to suit the specific customer.</p>	<ul style="list-style-type: none"> [-] Receive <ul style="list-style-type: none"> [-] Enable this menu: Yes [-] Record-type ID: R [-] Main menu title: Receive [-] Sub menu title: Receive [-] Insert scanned barcodes using field pattern: No [-] Save automatically when all fields are completed: Yes [-] Field 1 - Part No. <ul style="list-style-type: none"> [-] Enable field 1 : Yes [-] Field title: Part No. [-] Include field in output record: Yes [-] Set field as numeric only: No [-] Keep field value after each registration: No [-] Default field value: _ [-] Field max. length: _ [-] Field min. length: _ [-] Field pattern: _ [-] Field pattern applies to scanned values only: Yes [-] Allow field to be empty: No [-] Disable keyboard input: No [-] Scanner <ul style="list-style-type: none"> [-] Disable scanner input: No [-] Trim start position: 0 [-] Trim stop position: 0 [-] Database <ul style="list-style-type: none"> [-] Enable database input for this field: No [-] Input field for database search: _ [-] CSV file search column: _ [-] CSV file result column: _ [-] Field 2 - Quantity [-] Field 3 - Location [-] Field 4 - Order number [-] Field 5 - _ [-] Synchronize after each record: No
